SUMMARY

Motivated IT graduate with hands-on knowledge of Python, full-stack web development, and machine learning. Completed a Python Full Stack Development course and built projects in web development, data analysis, and machine learning. Strong problem-solving and communication skills, eager to learn, contribute, and grow as a Software Developer, Python Developer, or Full Stack Developer.

EDUCATION

Bachelor of Technology in Information Technology	2021 - 2025
Sri Venkateswara Collge of Engineering and Technology GPA : 7.9	
Intermediate (M.P.C)	2019 - 2021
Sri Chaitanya Junior College, Vijayawada GPA : 9.27	
Secondary School Education (10th)	2018 - 2019
Sri Chaitanya High School, Anantapur GPA : 10	

PROJECTS

Predictive Analytics for House Price Estimation Using Machine Learning	Github
Technologies: Python, Pandas, NumPy, Scikit-learn, Random Forest Regressor	
- Built a machine learning model to predict house prices using historical property data. - Performed data preprocessing and feature analysis to identify factors such as location, area, and amenities. - Trained and evaluated regression models, including Random Forest Regressor, to estimate property prices.	
Student Management System	
Technologies: Python, Django, HTML, CSS, JavaScript, SQL/MySQL	
- Developed a web-based application to manage student details, attendance, marks, and fee information. - Implemented role-based access for administrators, teachers, and students. - Designed database operations for storing and retrieving student information efficiently.	

SKILLS

- Programming:** Python, JavaScript, Java(Basics)
- Frameworks:** Django, HTML, CSS
- Database:** SQL, MySQL
- Machine Learning:** Pandas, NumPy, Scikit-learn, Matplotlib
- Tools:** Git, GitHub
- Concepts:** OOP, Data Structures & Algorithms, Machine Learning Basics

CERTIFICATIONS

- Python Full Stack Developement - PySpiders | [Certificate](#)
- UI / UX Developer - Larsen and Toubro | [Certificate](#)
